

**From Aspirations
To Airlines**

**Where Airline Senior Commander
and Army Veteran shape
India's Next Pilots**

ABOUT US

Airline Expertise

Military Discipline

Aviation Excellence

Sky Mentors Academy is a premier aviation ground school in Jaipur committed to shaping the next generation of pilots. We provide expert training for **CPL, ATPL, and Cadet Pilot Programs**, complemented by **professional grooming and airline readiness training**, ensuring students are ready not just to clear DGCA exams but to confidently step into the cockpit.

MEET THE MENTORS

Captain Siddharth Sharma

Chief Mentor

With over 21 years in aviation and nearly 9,000 flight hours, Captain Siddharth Sharma has served with three leading Indian airlines, operating both wide-body B777 and narrow-body B737 aircraft across continents.

His mentorship focuses on developing pilot mindset, decision-making ability, and cockpit maturity, helping students grow into confident aviation professionals.

Major Chhavi Sharma

Leadership & Discipline Mentor

With 12 years of distinguished service in the Indian Army, Major Chhavi brings leadership, discipline, and pressure-management skills to pilot training.

An alumnus of the Officers Training Academy, Chennai, she focuses on building confidence, communication, leadership mindset, and professional conduct in aspiring pilots.

Her mentorship prepares students to excel in airline interviews, assessments and professional aviation responsibilities.

RUNWAY TO BECOME A PILOT

Eligibility Requirements

- Minimum 10+2 with Physics & Mathematics (50%)
- NIOS accepted
- English proficiency required
- Minimum age: 16 years for training, 18 years for CPL

Medical Requirements

- Candidates must clear aviation medical examinations:
- DGCA Class II Medical – Initial clearance for flying training
 - DGCA Class I Medical – Professional medical fitness for airline operations
 - These tests evaluate vision, hearing, and physical fitness required for safe, long-term flying careers.

Class II Medical

Your first official clearance for flying

Ground Training

DGCA-compliant theory and exam readiness

Class I Medical

Professional medical fitness for airline operations

Flight Training

Hands-on flying experience at global training partners

Airline Preparation

Mentor-driven grooming for selection success

Type Rating

Transition to specific aircraft flown by airlines

Approximate Timeline: 2 years from start to Commercial Pilot License
